It is planning to provide training courses for teachers, who have not attended training courses before and going to teach pupils of grades 5 and 6 in the 2013/2014 academic year.

The new subject curriculums for grades 5 – 9 of general secondary and 10-11 of upper secondary education levels was prepared and approved. Moreover, the new subject curriculums is already being successfully introduced at grades 1-5.

It should be noted that the goal of training courses, which will be provided based on the new model for professional development within the Second Education Sector Development Project, is to increase theoretical and practical knowledge of teachers across the new subject curriculums.

Training courses will start in June 2013.
