Professional specialists teach practical knowledge and skills to pupils at learning studio used since the beginning of the current academic year by support of the Ministry of Education and "Eldar studio" company. For pupils' adaptation to the selected profession, all necessary factors have been considered in the design of learning studio supplied with advanced equipment.

It's considered to evaluate the pupils' knowledge and skills with a new method at final exam. Thus, at final exam along with the pupils' theoretical knowledge, their practical skills will also be assessed.

Education-production practice of pupils studying "Barber" profession at Baku Vocational Lyceum No.18 within Modern Azerbaijani Professionals Project of the Ministry of Education
