

---

On September 16-17, 2021, the Ministry of Education and the Media Development Agency will hold an educational training for mass media representatives.

The main purpose of the training is to ensure that the journalists who write articles about education receive full information on education, strengthen effective cooperation with the media and deliver information on activities performed in the field of education to the general public through the mass media.

During the trainings, the heads of structural divisions of the Ministry of Education will make presentations and exchange views on the new academic year in different areas of education.
