
Date of creation: 2020

Goal: The project is aimed at ensuring the continuity of education in our country when interruptions occur in the activities of educational institutions due to the COVID-19 pandemic.

Information: The distance learning process are already organized on the basis of national educational content and conducted via an interface translated into Azerbaijani language. Extensive possibilities such as video and audio lessons, group works, information sharing, homework exercises, assessments, teaching schedules, knowledge contests, teacher councils and monitoring mechanisms are being currently used.

Scope of the coverage: Over 1.4 million students are registered. In January 2021, the number of weekly classes exceeded 6 million and the number of active users exceeded 1.2 million.
