

---

On March 11, the Minister of Education Emin Amrullayev visited the region of Aghdash.

The opening ceremony of STEAM Centre in boarding-type gymnasium oriented technical, humanitarian and nature subjects named after M. Sheykhzade of Aghdash city was held in the framework of the visit.

Before the ceremony the memorial of Great Leader Heydar Aliyev was visited, the flower bouquets were laid in front of it.

Participating in the opening ceremony, the Minister of Education Emin Amrullayev got acquainted with the condition created in the Centre for students.

It was mentioned that the Centre is regional in nature. So, it is intended that the students from the villages of Aghdash region, as well as from Yevlakh, Barda, Ujar, Mingachevir and Kurdamir may benefit the opportunities created in this Centre.

Stating that it has been already put into operation such STEAM Centre in several regions, the Minister of Education mentioned that it is planned to build a total of 15 STEAM Centres across the country. Emin Amrullayev said that STEAM approach will provide the modernity of the education in Azerbaijan, as well as help the students to acquire necessary knowledge and skills.

It shall be noted that it is planned to extend STEAM project currently covering the students more than 100 thousand for country in the next academic year.

The aim of the project is to form critical, creative thought, skills of collaborating and other XXI-century skills, to create the opportunity of learning through creative process in the students. As well as, combining the subjects in unified learning model based on the applications in the directions of the solution of integrative, real issues, improving the capability of using modern ICT equipment by applying different programming languages are among the aims of the project.
