On May 15, the 56<sup>th</sup> International Mendeleev Chemistry Olympiad was organized in Uzbekistan.

Our pupils participating in the scientific competition have achieved successful results.

So, Nariman Shirinli, XI grade pupil of "Young talents" lyceum under BSU, won golden medal, Mahsati Piriyeva, XI grade pupil of Ganja City Physics, mathematics and Informatics Lyceum and Salman Huseynov, XI grade pupil of complete secondary school-lyceum No 2 named after Z.A.Ahmadzade of Pensar village, Astara region won bronze medals.

We congratulate our pupils and wish them success in their subsequent competitions!
