

---

The competition is conducted within the State Program for Informatization of Education System in 2008-2012, and supported by Microsoft Azerbaijan, Education for the Future program of Intel Corporation, Azerfon-Vodafone, AZEDUNET, Ultra, HP and Madad.

Applicants wishing to participate in the competition should register themselves on the contest's website [www.musabiqe.edu.az](http://www.musabiqe.edu.az), and receive detailed information.

The deadline for submitting documents to the competition, which is conducted in 2 directions: "Internet technologies in the education" and "Electronic educational resources at the modern school" is May 25.

The main goal of the contest is to make the use of electronic educational resources and internet technologies popular, inform the educational community about this, reveal new forms of Internet use in the education, and encourage teachers actively using IT.

It should be noted that in the "Internet technologies in the education" category applicants could present educational Internet resources, blogs and other Internet projects. The winners will be selected in Education Internet Resources and Teachers Blog categories.

Methodical materials on practical use of electronic educational resources in the education can be presented to the competition in the "Electronic educational resources at the modern school" direction. The winners will be selected from each of the following categories: "Best method for the use of ICT in subject teaching", "Best method for the use of ICT in the primary education system" and "Best teaching model on the use of e-educational resources". The two-stage voting procedure will be conducted by the jury consists of professionals and experts. Winners of each five nomination will be awarded with laptops, netbooks and other special prizes.

It should be noted that the competition is being held for a second time. In 2010, 810 projects were submitted to the contest and winners were chosen in 89 categories.
