The opening ceremony of our country's first festival, "TEKNOFEST Azerbaijan", took place on May 26.

At the opening ceremony, the Minister of Education Emin/Amrullayev familiarized himself with the stands where the Ministry of Education is represented. During the familiarization with the stands, the Minister in acconversation with students and pupils noted that it was encouraging that they took part in this festival with great interest.

EmirEminrAmrullayev rexpressed the hope that the ifestival will serve as rail bridge to the historical achievements of our youth related to the development of digital technology, and thanked the organizers.

It should be noted that the Ministry of Education was represented at the festival by "Baku SkiSkills" competition, gorganized by the ISTEAM project for schoolchildren and students, projects presented by a number of higher educational institutions, and 3 projects reflecting the activities of the Ministry of Education of the Nakhchivan Autonomous Republic.
