UNICEF has published a Global Annual Results Report on innovations in the global education system in 2021. The Report highlights the achievements of our country in a number of areas in education.

Thus, the document emphasizes that the state-funded pre-school training program in Azerbaijan covers 90 percent of 5-year-old children. In addition, as a result of the expansion of a scope of the project aimed at the development of community based pre-school education implemented in remote districts of our country, the establishment of 850 community based pre-school education groups in 695 community centers in 55 cities and districts has been presented as an achievement of our country in education. Currently, 16041 children aged 3-4 years old are studying in these groups.

The Report also highly appreciates the implementation of a project on school psychological health and psychosocial support in 9 conflict-affected regions in the framework of cooperation between the Ministry of Education of the Republic of Azerbaijan and UNICEF. It was noted that in this context trainings were organized for 4050 teachers to develop social and emotional learning skills of children and adolescents.
