

---

The Ministry of Education and Azerbaijan National Academy of Sciences have made a joint decision on holding the congress. According to the decision, there have been established an International Program Committee, Advisory Council and Working Group. Education Minister Misir Mardanov has been elected a chairman of Organizing Committee of the Congress. According to information, about 800 scientists from nearly 20 countries have registered on the website of the congress and about 500 lectures were presented.

It should be noted that Turkic World Mathematical Society was established in 1999. The organization consists of mathematicians from Azerbaijan, Turkey, Russia, Kirgizstan, Kazakhstan, Uzbekistan, China, USA, Mongolia and European countries. The first congress of the society was held at Firat University (Turkey, Elazig) in 1999; the second was held at Sakarya University (Turkey, Adapazari) in 2007, and the third at Kazakhstan National University named after Al-Farabi (Kazakhstan, Almaty) in 2009.

The main aim of the organization is to achieve the integration of scientists of Turkic origin around the world, help them to establish and strengthen ties with leading research centres, and facilitate the worldwide recognition of scientists of Turkic origin.
