

---

The 3rd International Forum on "New Challenges in Education" took place on November 5.

The forum was held in a hybrid format organized by the Network of Educators' experience and communication platform, the Education Institute of Azerbaijan, in collaboration with the Ministry of Science and Education of Azerbaijan, the Organization for Economic Co-operation and Development (OECD), and the Education Development Fund.

The main purpose of the forum is to discuss the new challenges in education, to review the educational needs of the new age and improve the quality further.

The forum was attended by the Minister of Science and Education of the Republic of Azerbaijan, Emin Amrullayev, OECD representatives, representatives of some 20 countries, rectors of universities, professors, science and education figures, teachers, school principals, and other guests.

Minister of Science and Education Emin Amrullayev, who delivered the opening speech, was the first to note the importance of the forum for the educational community.

Speaking about the international assessment studies, the minister said that participation in these studies makes us members of the global education system and also gives us the opportunity to exchange ideas with colleagues from different countries.

Emin Amrullayev noted that over the past few years, the PISA international assessment study has been identified as one of the main goals of education development in the country. According to the minister, PISA gives us not only figures but also quite serious science and evidence.

---

In his speech, the Minister of Science and Education also noted that the inclusion of education as a separate section in the document "Azerbaijan 2030: National Priorities for Socio-Economic Development" sets specific goals for educators.

Emin Amrullayev concluded his speech by wishing the forum every success.

Then Stefania Giannini, UNESCO's Deputy Director-General for Education, who joined the forum in an online format, said that education is a social service, and using the digital revolution for education should be the main goal. Stefania Giannini added that experienced, qualified teachers in the auditorium should play a key role as administrators of the education system.

Stefania Giannini highly praised the inclusion by the Azerbaijan government of a section on education in the document "Azerbaijan 2030: National Priorities for Socio-Economic Development" and the work being done in this area.

The forum's keynote speaker, Andreas Schleicher, Special Adviser to the OECD Secretary General on Education Policy and Director of Education and Skills, then gave a presentation on "How to prepare learners for the future?".

Speaking about the education of the future, Andreas Schleicher noted that schools have already embraced the digital transformation, which is changing the nature as well as the tools of learning. Referring to the use of digital technologies in the learning process, Andreas Schleicher said that this makes learning more engaging and effective. The teacher's role in this process remains high.

Luis Pereira dos Santos, Chair of the Board of the Portuguese Institute of Educational Assessment, PISA Board Representative in Portugal, Maye Kitsing, Adviser to the General Education Department at the Estonian Ministry of Education and Research, Country Coordinator for PISE, Mario Piacentini, Senior PISE Analyst, Tracy Burns, Director of Research at the US National Center for Education and the
