

---

Having warmly welcomed the guest, Education Minister expressed his satisfaction at seeing him at the Ministry. Talking about relations existing between Azerbaijan and South Korea, the Minister underlined the importance of cooperation established in the education field. The Minister said that works done within the Establishment of Vocational Training Centre on Advanced Technologies Project implemented in the frame of a memorandum signed between the South Korean Daewoo Company and Ministry of Education enter final stage. Mr. Mardanov underlined the role of Vocational Training Centre in organizing the vocational education system of Azerbaijan in a modern level and providing industrial establishments with qualified personnel. According to him, this field is one of the priority areas of the country. He noted the importance of the project and expressed his gratitude for the work implemented in the relevant field.

Director of Southwest Asia Team of Export-Import Bank of Korea Jung-soo Jun thanked the Minister for the warm reception, as well as for his interest in this project. He noted that experts from Korea have visited Azerbaijan several times to analyse comprehensively the education complex that will be built. He said that they are planning to hold meetings with relevant bodies within the realization of the project, and also touched upon issues on the agreement that will be signed. Moreover, he expressed their willingness to render the necessary help within the project.

At the end, Minister Mardanov noted the importance of successful implementation of the project, and thanked the guest for support.

At the meeting, the parties have underlined that the realization of the project will create a fruitful ground for development of cooperation between two countries, as well as they noted the importance of agreement that will be signed within the relevant project.
