On March 15, the Georgian Minister of Education and Science Mikheil Chkhenkeli, who is on a working visit to our country, together with Minister of Science and Education Emin Amrullayev attended the opening ceremony of STEAM Centre at a school-lyceum No.2 named after N. Allahverdiyev in Gakh city.

Musa Shakhliyev, Head of the Executive Power of Gakh district, Faig Guliyev, Azerbaijani Ambassador to Georgia, Zurab Pataradze, Georgian Ambassador to Azerbaijan, also participated in the event.

The guests first visited the monument to the great leader Heydar Aliyev and laid flowers in front of the monument.

The guests were then acquainted with the conditions created at the school-lyceum. Emin Amrullayev and Mikhail Chhenkeli familiarized themselves with the teaching process in the Azerbaijani and Georgian sections of the school and talked to the teachers and students. The school-lyceum reportedly has 32 Azeri, 11 Russian and 10 Georgian classes, with a total of 53 classes. Together with the preschool preparatory groups, 946 students study at the educational institution, 157 teachers are engaged in their training.

During the acquaintance with the newly opened STEAM Center at the school-lyceum, the guests were told that STEAM has been taught at this educational institution for 3 years already. Fully equipped with innovative technologies, the center is designed for use by all age groups, it has zones for science, zones of "Logo System" for younger pupils, CNC mechatronics and 3D printing, and drone directions.

The Minister of Science and Education Emin Amrullaev, and his Georgian counterpart then visited the village of Alibeyli, where Georgians live, and visited the Shota Rustaveli secondary school, where education is conducted in the Georgian language. It was reported that the educational institution had been reconstructed and commissioned in 2019 in accordance with a relevant order of the President of the Republic of Azerbaijan Mr. Ilham Aliyev. The 216-seat school building, built to modern standards, has along with classrooms 11 subject cabinets, 2 laboratories, 2 technology rooms, computer and pre military preparatory rooms, as well as a canteen, assembly and sports halls and auxiliary premises. There are 30 teachers for 158 pupils in the school.
