

---

A delegation led by the Minister of Science and Education, Emin Amrullayev, continues to participate in the World Education Forum, held in the traditional format in London.

Emin Amrullayev spoke on the topic "What role does education play in the development of sustainability and what role does sustainability play in the development of education systems?" at the 7th plenary session.

The minister informed the forum participants about the work done in terms of continuity of education, in particular the restoration of education in the territories liberated from occupation.
