

---

The delegation led by the Minister of Education and Science of the Republic of Tatarstan of the Russian Federation, Ilсур Khadiullin, is on a visit to our country.

Within the framework of the visit, the guests visited the Alley of Honor, honored the memory of national leader Heydar Aliyev, and laid wreaths and flowers at his tomb. They also visited the tomb of outstanding scientist-ophthalmologist and academician Zārifa Aliyeva and honored the memory of martyrs (shahids) in the Alley of Martyrs who died in the struggle for Azerbaijan's independence and territorial integrity.

Then Minister of Science and Education Emin Amrullayev met with Minister of Education and Science of the Republic of Tatarstan Ilсур Khadiullin. During the meeting, Emin Amrullaev informed the guests about the work done to develop the education sector in our country. The parties discussed the current state and prospects of relations and, in particular, emphasized the availability of broad opportunities for cooperation in the areas of vocational education and support for teachers' professional development.

As part of the visit, the guests visited the Steam Innovation Center. The delegation was informed about the conditions created in the center. It was reported that the center has an aviation center, classic Newton zones, Newton for children, a center for games and constructions, Heureka Classics science centers, a robot training laboratory, a 3D hologram, and VR (virtual reality).

The delegation also visited Baku State University (BSU) and met with Rector Elchin Babayev. During the meeting, they discussed cooperation relations between BSU and higher education institutions in the Republic of Tatarstan. Minister Ilсур Khadiullin also met with professors and lecturers who studied at Kazan Federal University and currently work at BSU.

On November 21, the guests visited Baku European Lyceum and got acquainted with the conditions created in the institution as well as the educational process.

On November 22, a meeting was held with the delegation at the State Agency for Vocational Education. During the meeting, they discussed the exchange of experience and teachers in the field of vocational education and the implementation of the "Twin Schools" project. The guests also visited the Baku State Vocational Education Center on Industry and Innovations.
