
Our students successfully represented our country at the International Physics Olympiad (IPhO 2024) held in Isfahan, Islamic Republic of Iran, July 21-29.

230 students from 46 countries competed with their knowledge and skills in physics at the Olympiad organized at Isfahan University of Technology.

At the Olympiad, consisting of theoretical and practical rounds, Azerbaijani students won 1 silver and 1 bronze medal, and 2 motivational awards.

Thus, Ibrahim Valehli, the 10th grade student of the “Kaspi” Lyceum, won a silver medal, Murad Ismailov, the 11th grade student of physics, mathematics and informatics biased lyceum in Guba city, won a bronze medal, Ravan Najafli, the 11th grade student of “Ankara School” school-lyceum, and Adi Sattarov, the 11th grade student of a lyceum named after an academician Zarifa Aliyeva, were awarded the motivational prize of the Olympiad.
