On May 10, President of the Republic of Azerbaijan Ilham Aliyev attended the opening of a nursery-kindergarten in the village of Kangarli.

The President was informed that the facility, built to modern standards, can accommodate 120 children and provides a healthy, nurturing environment for their development. All rooms are fully equipped, and the kindergarten will operate six groups.

The kindergarten also features a playground with various attractions and sports equipment, all set within a beautifully landscaped area.
