
The investigation covered the general educational institutions (correspondence groups at general educational institutions excluded) in Baku city, schools subordinated to the Ministry of Education and schools at the universities. Investigation report was developed based on collected data about 336 schools.

In accordance with the investigation conducted, the Ministry of Education made a rating list of general educational institutions in Baku. Comparison analysis between the results of 2012-2013 and 2011-2012 academic years of general educational institutions was described in the rating list.
