

---

It was stated in presentation that, SABAH groups open wide opportunities to the students who want to be professional specialist under his specialty. Students who will be admitted in SABAH groups not only will get opportunity for higher level study but also will get several privileges like additional scholar during academic years, free placement in the hostel, food.

Regardless of paid study or by the order of state, all students studying at SABAH groups will get SABAH scholars.

Modern visions, higher education, proficiency of several languages in rapidly growing world significantly increase chance to build up prospective career, find a job in the future. Taking into account this point, swift education program will be applied in accordance with the desires of the students in SABAH groups. Exchanges with the universities of foreign countries, regular relations with main employers will be given great importance during academic year.

Graduate of SABAH group will not only know native language but also English language perfectly.

Selected students will be sent to foreign countries.

Creating 33 universities, SABAH groups will surround 52 specialties. Students who gets the best indicators under his specialty will be placed in the universities.

Sample: "İqtisadiyyat" specialty is taught in 20 universities that surround capital of Azerbaijan and the regions. Azerbaijan State Economical University has been selected as base school under this specialty. The best 25 students who take part in selection phases in order to be a member of SABAH group under "İqtisadiyyat" specialty, will be selected and they will continue their study transferring to Azerbaijan State Economical University.

Students to SABAH groups will be selected through the students of the first year whose score average isn't less than 61. Student who wants to be a member of SABAH should pass 3 phases: to be registered in electronic form in [www.sabah.edu.az](http://www.sabah.edu.az) till June 12, to pass "SABAH" examination that consist of 50 questions including 25 logic and 25 foreign language from July 1 to July 15 and finally to pass the interview.

Students who pass these phases with higher score will be admitted to SABAH groups and they will continue their student in base university according to their specialties since the second years.

SABAH groups will be space for meeting of the teachers who teach qualitative teaching and the best students of selected specialty.

Let's note that SABAH groups including Elementary School Teacher, History and Geography Teacher, Mathematics and Information Science Teacher in Azerbaijan State Pedagogical University will be established under 3 specialties. SABAH groups will surround oil-gas engineering, oil-gas plants engineering, electro-energy engineering and chemical engineering specialties in Azerbaijan State Oil Academy.

SABAH groups will be managed via "SABAH Center" located in higher educational establishment.

Activity of the centers will be directly supervised by The Ministry of Education.
