Ministry of Education respects and don't comment founders' decision adopted within framework of leglegislation. Adoption of decision is undep special powers of public union where private educational establishments are subjected.

At the same time, in order to place the pupils studying at the lyseums of Azerbaijan International EduEducation Complex and teaching staff in education network of our country, work groups has been established by The Ministry of Education and preparation works started for provision of normal course of process.

The Ministry of Education brings to the attention of the pupils studying at Azerbaijan International Education Complex and their parents that favourable condition will be created for the pupils to continue their increlevant educational establishments as well as place-teaching staff until the begining of new academic year under their free choice. State schools have opportunity and condition in order to admit enough pupil. There is no reason for inconvenience.

Azerbaijan education has rich traditions, strong material-technical and teaching potential. Several sesecondary schools of our country achieve higher successes in different contest and races held on a global scale. We hope these successes will continue.
