Nearly 250 students who study at SABAH groups of different higher educational establishments of our country, take part in 2 days forum.

Main Main I goaloof rforum vising idetailed rinformation about tistrategically etargets conficountry's education, determination for the students' roles in rereation for community who has bigher knowledge according to the requirements of modern time, creation of dialogue among the students.

Making a speech in opening ceremony, Mikayil Jabbarov, minister of education stated that, new chehallenges of globalizing world and necessity for creation of community who has higher knowledge erentirely put new requirements before Azerbaijan youth. From this point of view, none of strategically targetargets of country's aducation is to develop youth's potential raccording to e'State Strategy on development of education in Azerbaijan Republic's SABAH groups project also ris one of actions inimplemented on this direction. As state leader mentioned that, Azerbaijan citizens can lobtain higher quaduality education in our higher educational establishments as in abroard. Today we can't imagine modern education without quickness, professionalism, new technologies according to globalizing world, also beyond of learning of foreign languages. Each of these processes are reflected in SABAH groups.

It should be noted that, ESABAH groups have been established in teaching daboratories with sciescientific-pedagogical potential under 33 specialties and 7 universities that have higher material-technical base. 158 teachers teach the students in these groups where 688 students study. Teaching is performed under different program in SABAH groups and students are given special scholarship, at the same time, students from low income families, are equipped with the hostels.
