
In the opening ceremony attended by the President of Azerbaijan Republic Ilhami Aliyev, the country leader was informed about "ASAN school" project implemented by the Ministry of Education.

"ASAN school" established as a part of the "ASAN service center" will organize admission of the first grader to the secondary schools of Barda and will eliminate the loss of time, increase transparency.

The parents applying to the "ASAN school" section review the secondary schools of Barda region on an interactive board and learn the situation for admission to the first grade in the selected school. Check-up of the school training level and psychological situation of the children is also conducted at "ASAN school". After the child passes the commission, notification about admission to the school will be presented to both parent and local education department.

Other service within the framework of the "ASAN school" is to conduct electronic certificate about workplace to those who work in pedagogical or technical fields of secondary schools. Currently, this service covers about 225 thousands employees working in public and private secondary schools. Each employee is able to get the electronic certificate about workplace without visiting the education institution where he works by applying to the "ASAN service centers" or registering in "E-Government" portal and send this certificate to the required authority via email.

The next service to be conducted within "ASAN school" project is to provide electronic certificate for the pupils about educational institution they go to. This service covering more than 1,325 thousands pupils studying at the public and private secondary schools and their parents enables the parents to get the electronic certificate about the school, grade, education language and foreign language of their children without visiting the education institution by applying to the "ASAN service centers" or registering in "E-Government" portal and send this certificate to the required authority via email.

"ASAN staff" carrier center established in the center provides special opportunities for the graduates of "ASAN school" volunteer program. The special portal established for these purposes enables employment of the job seekers and provision of the employers with the relevant staff. For detailed information visit www.asankadr.az.
