This innovation will not only introduce our classical music heritage and masterpieces of the art of mugham, taking its rightful place in the treasury of world music, to guests of our city, but also it will attract their attention to the magnificent building of Baku Music Academy.

Yegana Akhundova, the vice-rector of Baku Music Academy, said that samples of classical and national music performed with the help of the special equipments installed on the building of the educational institution, will improve the mood of numerous visitors, who will come to our city in connection with the first European Games over the next few months, and residents, as well as will create a good impression and satisfaction in their minds.
