

---

Huseyn Hajiyeu, successfully passed the interview organized by "Microsoft Azerbaijan" company in 2013, was awarded the Certificate "The most young and active Windows Expert" in the 19th International Telecommunication and Information Technologies Exhibition - BakuTel-2013. He was able to win the level "Advanced Master" of «ICT Masters Organization» of Baku European Lyceum.

H. Hajiyeu received a certificate for taking part in the webinar entitled "Digital Learning Weeks in Baku European Lyceum" within the framework of the UNESCO LFF project implemented by Baku European Lyceum in 2014 with the participation of 5 countries. As well as, he became the winner of several projects by taking an active part in the UNESCO project Global Lab. He demonstrated the best results and was awarded with the Diploma in the "Beaver 2014" International competition for schoolchildren on Informatics and Computer Knowledge.

H. Hajiyeu, preparing the application program for Lyceum teachers for the assessment of students on the points system, is working on a scientific project entitled "The role of programming in education". He is enthusiastically engaged in graphic arts, music and dance.

It should be noted that Azerbaijani student will be awarded with the prize of World Intellectual Property Organization in August this year.
