

---

On November 5, the opening ceremony of "Temiz Sheher" ("Clean City") Center was held at Azerbaijan University of Architecture and Construction.

The trainings on the theme of environment and waste management will be held by employees of "Clean City" Open Joint-Stock Company and other specialists for students of Azerbaijan University of Architecture and Construction at "Temiz Sheher" ("Clean City") Center.

Gulchohra Mammadova, Rector of Azerbaijan University of Architecture and Construction, welcomed the guests and noted that "Temiz Sheher" ("Clean City") Center would play an important role in the preparation of specialists in the field of environmental protection and waste management.

Speaking at the event, Jeyhun Bayramov, Deputy Minister of Education, said that numerous projects were being implemented in the direction of personnel training on the priority fields. Speaking about the core activities of educational institutions in this direction, J. Bayramov emphasized that "Clean City" Open Joint-Stock Company paid special attention to this field and it was so praiseworthy.

Zakir Ibrahimov, Chairman of the Executive Board of "Clean City" Open Joint-Stock Company, noted in his speech that waste management was a new field and he underlined the importance of training of highly qualified personnel in this direction. According to the chairman of the company, students of Azerbaijan University of Architecture and Construction gained work experience at "Clean City" Open Joint-Stock Company and attended summer schools and educational tours within the framework of cooperation between "Clean City" Open Joint-Stock Company and this higher education institution.

Then the classrooms were reviewed and the questions of the guests were answered.
