*Read the passage and answer the following questions.*

Clarkson is a large town. It has more than fifty thousand people living there. It is situated next to a large river, the Clark River. Every day people take the ferry from North Clarkson to South Clarkson to go to work. (1)

Most people live in North Clarkson. There are many trees and the streets are very broad. When the sun shines, the children run and play in the safe streets. North Clarkson is a wonderful place to live. (2)

South Clarkson has a lot of shops and factories. People don't live there, but they come in the

morning to work. There is also a big stadium where the Clarkson Tigers play. (3)

At the weekend, the people from Clarkson enjoy walking along the bank of the Clark River. They also sail small boats on the water and if there is a little wind, they fly kites in the large park. (4)

Every year Clarkson grows in size because a lot of people come to live there. The government builds more houses and the streets get busier. (5) Maybe in the future, if the town continues to grow, it will become a city!

*Read the passage and answer the following questions.*

The health of a big, developed country's economy depends largely on its industry. Factories have to keep busy. They must produce and sell their \_\_\_\_\_ in large quantities. Shipyards must make and sell ships; car plants must make and sell cars. A period of industrial success, when everything goes well and large profits are made, is called a boom. On the other hand a period when there is not much industrial activity is called a slump. To maintain a high level of production is not simple. For example Japan, a very successful industrialized country, has very few natural resources such as oil or coal, and has to import them from other countries

in order to keep its industries going, and thus to supply needs at home and also to export its goods to its overseas markets.
